Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. **PETITION TO REVIVE AND
STATEMENT UNDER 37 C.F.R. 1.137(b)**

Attention: Office of Petitions
Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Undersigned Counsel for Applicants hereby provides a showing of cause under 37 C.F.R. 1.137(b) for revival due to unintentional abandonment of the above-captioned patent application, and declares as follows:

1. Undersigned Counsel represents Applicants (*Francke et al.*) in the above-captioned patent application.
2. A Notice of Abandonment of the application was mailed on August 17, 2009, and it was received by Undersigned Counsel on August 20, 2009. (Ex. A.) Prior to receiving the Notice

Applicant: Francke et al.
Application No.: 10/559,158

of Abandonment, Undersigned Counsel was unaware that there had been any substantive action taken in the case, and in particular did not know that an office action had been entered in the case.

3. A January 26, 2009 official action was obtained by Undersigned Counsel only after receiving the Notice of Abandonment. The January 26, 2009 action indicates that it had been sent to an old address for Undersigned Counsel, despite the fact that a Notice of Address Change had been filed, received by the Patent Office, and entered into the PAIR system on November 10, 2008 (Ex. B).

4. The Notice of Abandonment indicates that it was entered because no response has been filed for the January 26, 2009 official action. (Ex. C.) A three-month response period had been set so the application officially lapsed on April 26, 2009. The entire delay from the Reply due date to the present was unintentional.

5. Attached are Applicants' November 7, 2008 Notice of Address Change (Ex. D), and Applicants' postcard that was date stamped November 10, 2008 by the United States Patent & Trademark Office (Ex. E).

6. The delay in filing a Reply as referenced in the Notice of Abandonment, therefore, appears to be a Patent Office error, and not of Applicants or Undersigned Counsel, and this application should be revived at no cost to Applicants.

7. On August 20, 2009, Applicants' counsel's paralegal left a telephone message for this applications' Examiner Smith regarding the Notice of Address Change and Notice of Abandonment. Examiner Smith left a return telephone message on August 24, 2009 indicating that she did see that the Notice of Address Change had been filed on November 10, 2008 and

Applicant: Francke et al.
Application No.: 10/559,158

that the Official Action had not been mailed until January 26, 2009. Examiner Smith agreed that the Official Action *was not* mailed to the appropriate address.

8. Examiner Smith suggested that these facts be stated in a Petition to Revive.
9. A complete response to the January 26, 2009 official action is submitted herewith.
10. Undersigned Counsel has been warned that willful false statements and the like are punishable by fine or imprisonment, or both (18 U.S.C. 1001) and may jeopardize the validity of the application or any patent issuing thereon. All statements made of the declarant's own knowledge are true and that all statements made on information and belief are believed to be true.

Respectfully submitted,

Jeffrey W. Smith, Reg. No. 33455

DETAILED ACTION

Drawings

1. The subject matter of this application admits of illustration by a drawing to facilitate understanding of the invention. Applicant is required to furnish a drawing under 37 CFR 1.81(c). No new matter may be introduced in the required drawing. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d).

Specification

2. The disclosure is objected to because of the following informalities: page 2, lines 26 and 27; the use of "claim 1" and "claim 17" should be replaced with the specific features of the claims as during prosecution, the scope of the claims may be amended such that the scope of the specification is not consistent. Appropriate correction is required.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-16 are rejected under 35 U.S.C. 101 because the claimed invention lacks patentable utility. The claims are directed to a method for extracting milk from animals, however no method steps have been claimed.

Claim Rejections - 35 USC § 112

Art Unit: 3644

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. Claim 1 recites the limitation "the extracted milk yield" in line 2. There is insufficient antecedent basis for this limitation in the claim.

7. Regarding claim 4, the phrase "preferably" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

8. Regarding claim 8, the use of and/or renders the claim indefinite as it is not clear as to which limitations are required.

9. Regarding claim 11, the phrase "in particular" and "preferably" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

10. Regarding claim 15, the phrase "in particular" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

11. Claim 17 recites the limitation "the milking places" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 3644

12. Regarding claim 19, the phrase "in particular" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

13. Claim 20 recites the limitation "the selection means" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

14. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

15. Claims 17-20 *as best understood* are rejected under 35 U.S.C. 102(b) as being anticipated by Westfalia, DE 101 31443. Westfalia discloses a device for extracting milk from animals.

Conclusion

16. In light of the 35 USC 101 and 112 rejections, art based rejections were not able to be determined at this juncture. The lack of art based rejections is not indicative of allowable subject matter.
